

# VERMONT EMS DISTRICT #3

## POLICIES

### DEFIBRILLATION RUN REPORTS

In order to assure quality pre-hospital medical care, it is essential that advanced life support interventions be reviewed with a physician.

Therefore, when a call involving pre-hospital defibrillation occurs, the state defibrillation run report copy, and Vermont EMS Incident Report run copy are to be left at the hospital.

Approved by EMSD#3 Board April 13, 1989

Revised April 10, 1999

Revised July 12, 2001
